## Work

---

**Hosted Graphite / Feature Lead / CS & Product & Business**

FEB 2016 - PRESENT, 2016

Expanded previous role to include lead responsibility on defining the frontend product pipeline and developing the frontend features resulting from that. This included identifying requirements and delegating tasks/features to junior developers and then reviewing and guiding their progress.

**Hosted Graphite / UX Developer / CS & Product**

MAY 2015 - FEB, 2016

Lead responsibility for information architecture, user experience and visual finish. Also shared responsibility for customer support to get a strong idea of customers issues.

**Xwerx / UX Intern / Product**

MAY 2014 - AUGUST 2014, DUBLIN

Wrote user guides for customers and conducted UX reviews and completed some small UX reviews for customer features and UI elements.

**Software Contractor / UX and Programming / CS & Product**

AUGUST 2013 - APRIL 2015, DUBLIN

Sourced and developed several separate contracting jobs for me and fellow classmates including UX work, design projects, an Android app and server contracting work.

**VTP (Voluntary Tutor Program) / Tutor / Education & Voluntary**

SEP 2013 - JAN 2013, DUBLIN

Worked voluntarily once a week as a one-on-one tutor with kids in Dublin city centre. Essentially a homework club.

**Fullstack.cc / UX Developer / CS & Product**

MAY 2013 - AUGUST 2013, DUBLIN

UX intern as well as client liaison and small scale Android developer. We developed a full education MOOC website alpha and a beta for a sports second screen app.

**Science Gallery / Science Educator / Education**

SEP 2012 - NOV 2013, DUBLIN

I mediated exhibitions part-time based on several varied scientific topics, including tours and on-on-one education with children.

**UCDVO / Tech lead for IT Education project / CS & Education & Voluntary**

SUMMER 2011, MOROGORO TANZANIA

During a six week trip to install Ubuntu computer rooms in several local schools, I was spread as the Technical Support between the schools for the mornings, installing new infrastructure and resurrecting any failing infrastructure from previous years. In the evenings I was part of classes teaching the teachers how to use the computers personally and to educate. It was part of an ongoing project in the area to improve technological education.

**Various Agencies** / Promotional & Sales / **CS & Business**

SUMMER 2010 - 2013, DUBLIN

Worked with various agencies on promotional campaigns (beer companies, Red Bull, animal welfare charities). Culminating in over a year being a HP rep in PC world in Jervis Street shopping centre. Mainly direct sales but included stock management and customer support.

---

## Education

---

**Trinity** / Computer Science / 2.1

SEP 2011 - MAY 2015, DUBLIN

Left with a strong appreciation for good software practices through the people in my class as well as the course itself.

**UCD** / Architecture / unfinished

SEP 2008 - MAY 2011, DUBLIN

Developed an appreciation of design principles however left after second year to pursue study in an industry I was more passionate about working in.
